NEED MOTOR PUMPING APPARATUS

Fire Department Committee Recommends Appropriation in Next City Estimates-Would Displace Two Horses-Present Piece of Motor Apparatus Has Extinguished 87 Per Cent. of Fires Unaided in Past Year.

The recommendation that an appropriation sufficient to cover the cost of a combination motor pump and hose wagon be included in the next city estimates by the finance committee was included in the annual report of the Board of Fire commissioners that wagon be included in the next city estimates by the finance committee was included in the annual report of the Board of Fire commissioners thaat was presented on Monday evening to the common council.

If this apparatus could be secured it would replace two horses and save the general overhauling of a chemical wagon, it is stated in the report which also says that a number of improvements contemplated by the fire com-missioners remain undone because of lack of funds. The principal need of the fire department is more motor driven apparatus and in view of that committee recommend that the Greeneville district from the old taken to procure at least one to treat the beyond repair to the tower until the horses conditte the department are entired. This has been under consideration for some time and is thought steps be taken to procure at least one piece each year until the horses con-nected with the department are en-

tirely displaced.

The only piece of motor apparatus which is now owned by the Norwich department and which is located at the central station has extinguished 87 per cent. of all fires in the past year without the aid of other apparatus, owing to the quick response that placement of that amount by reason of age and the usual wear of hose, paratus.

Famous Dancer Gives Complexion Secrets

I've learned the secret of Dolores' entrancing beauty—the wondrous charm that has dazzled the courts of Europe and captivated vast audlences everywhere. The famous dancer abhors rouges and cosmetics. Yet despite the strenuosity of her life, she retains the incomparable complexion best described as "indescribable." An intimate friend tells me the senorita regularly uses on her face what druggists know as mercolized wax. This is applied at night in the manner cold cream is used and washed off in the morning. It absorbs the dead particles of skin which daily appear, and a fair, soft, freeh, girlish complexion is always in evidence.

Dolores' skin is not marved by a single wrinkle, not even the finest line. She wards these off by daily bathing the face in a solution made by dissolving an cunce of powdered saxolite in a half pint witch hazel. As your drug stores keep these ingredients, as well as mercolized wax (one ounce of the wax is sufficient), no doubt your readers will welcome this information.—Affeen Moore in Beauty's Mirror.
